“ Im PROUD to have had my experiences with Antonio Geary with my “BFM 1 on 1 Private Lessons” & “BFM Consultation Services”. He has proven to be a true talent and hard-worker at his craft. I’ve watch him work on timing, creativity, expression and confidence and all of which he’s grown tremendously. I support his future endeavors as a mentor and big brother and will continue to guide him as much as I can with encouragement and dignity. All around the board... Antonio Geary is a pretty AMAZING guy. Proud to be your brother.”

-Brian Frasier-Moore

“ Every once in a while a student will cross your path and the little voice in your head says, “This kid has what it takes.” Antonio is that student! Not only is Antonio graced with an abundance of natural ability, he’s also a very hard worker. He’s always prepared with his lessons and asks the right questions in my Open Counseling sessions with him; not only about drumming, but everything else that goes along with being a self-employed WORKING musician. Antonio has a very bright future ahead of him.”

-Bob Terry

(Drummer who played with The Beach Boys, Eddie Money and Wang Chung)

“ It was my pleasure to be Antonio’s first drum instructor. His work ethic and attitude towards lessons can’t be taught. To top that off he has loads of natural talent and has something really special. He has a great personality and demeanor that will help him in his musical career. I enjoy following his progress at the Musicians Institute and look forward to what the future holds for him.”
